D – died	md – married
d/o – daughter of	s/o – son of

DATES – HOW TO READ

Dates are listed as day, month, and year. So January 1, 2000 would read 1 JAN 2000. When only the year was given, only the year was recorded. If no dates appear on a headstone, the “Born” and “Died” columns are left blank.

NUMBERING SYSTEM

The column label “S/R/M” indicates **S**ection, **R**ow and **M**arker. If three sets of numbers are listed (i.e. 1, 2-01) it indicates the cemetery is divided into sections, then rows and markers. If only two sets of numbers are listed (i.e., 4-01) it indicates the cemetery is only divided into rows, then markers. When more than one name appears on the same stone, those names are assigned the same row-marker designation. Groupings of unmarked graves are assigned the same row-marker designation.

ADDITIONAL HEADSTONE INFORMATION

This column contains information about relationships, military service, and other miscellaneous inscriptions appearing on the headstone. In addition, brackets are used to describe observations about conditions of headstones and to identify various grave site markers, such as [Masonic Emblem] and [FHM]

INDEX

This book includes a full name index by surname. Females are listed by maiden name (where known) as well as by married name.

PREFACE

Haralson County Georgia was created from Carroll and Polk Counties in January 26, 1856 by the Georgia General Assembly. It was named for General Hugh A. Haralson of LaGrange, Georgia. General Haralson served as a member of the Georgia General Assembly, the Congress of the United States, and was a Major General of the Georgia Militia.

When searching for information on ancestors who lived Haralson County, don't forget to check Carroll, Polk and Paulding Counties, as well as northeastern Alabama. Many of the early residents may have lived in one county and attended church and were buried in another county.

Recording the information on the tombstone is very important. Many of the older stones are deteriorating at an alarming rate and the newer ones are being lost due to vandalism and acts of nature. These records must be preserved for future generations. That is why this book was compiled.

Most of the surveys were done by volunteers and verified by a second person. A few were compiled from family records and oral history since the cemeteries no longer exist to be verified. While everything humanly possible has been done to avoid mistakes, the Society regrets any errors in spelling, typing or facts. Every attempt was made to have rows in this survey read from left to right. Unfortunately, this was not always possible. We apologize for any inconvenience this may cause. The information was recorded as it appears on the stone. Obvious mistakes were corrected in the Comments column. This book is fully indexed, including names from the Comments column.

We hope you find the book useful and please let us know if it helped break through any of your brick walls.

Haralson County Historical Society

The Haralson County Historical Society would like to thank all the volunteers who helped compile this book. No matter if you did the actual survey, verified or typed the survey, or provided information about the “forgotten” cemeteries and unmarked graves, without your help this book could not have been published.

We hereby dedicate the book *Haralson County, Georgia, Cemeteries* to you,
the volunteers.

The following cemeteries were thought to be in Haralson County at some point, but volunteers were not able to locate in 2002:

Payne's Mill
Payton
Petters
Shides

Tobe Eaves – According to information from a local source, the property is now leased to a timber company and is thought to be on the property of the heirs of Benny Jones of Paulding County. The property is located off Floyd Road approximately ½ to 1 mile east on a former county road which now has a locked gate and is impassable. The road to the Tobe Eaves home place, which has been closed to public use for more than 50 years, is located approximately 1.5 miles east of the Mt. View Baptist Church. Except for information provided by Mr. Earl Kirk, no one has been able to confirm a cemetery exists at this location. According to Mr. Kirk, the cemetery was across the road, west of the house, in the proximity of the barn with 6 to 8 graves. No one has been able to access the property to look for the cemetery or the old home place.

Information provided by Douglas J. Floyd

Frances White – This cemetery is thought to have 3 or 4 graves and is located approximately ½ mile behind the residence of Mr. Charles W. White (843 Frances White Road). The access is a field road that is impassable in the winter and during wet weather. This information is made available by Mr. Charles W. White, grandson of Frances White, and James Reynolds, son-in-law of Mr. Charles W. White. Mr. Reynolds believes that one of the graves is probably a child and the others are adults. The property has been in the White family for many years.

Information provided by Douglas J. Floyd

{ ADDED NOTE: There was apparently a “**Brooks Family Cemetery**” in/near Felton where [the graves recorded there](#) have been relocated. }

BREMEN CITY CEMETERY

Surveyed by Bill Jones (October 1999); verified by Betty Tims and Barbara Wright (November 2002)

From the intersection of US27/US78 (Bremen) travel east on US78 0.6 miles. Entrance to cemetery is on the right.

Reid Street splits the cemetery in half. Section A starts on the east side behind Calvary Church (Sections A-G are all on the east side of Reid Street). The west side (Sections H-J) starts behind the Golden Eagle Motel and reads right to left, going south on Reid Street.

REID FAMILY CEMETERY

Information provided by Dr. Terrell McBrayer (January 2003)

From US27/US78 (Bremen) travel east on US78 1.1 miles to US27Business. Turn left and travel north on US27 Business 0.5 miles to McPherson Street. Turn right and travel 2.0 miles to Pilgrim's Rest Church. Just past the church on the left

Haralson County, Georgia, Cemeteries

is a trail leading to the site.

This is the family cemetery site for the TASSIE REID family. Reportedly, the cemetery was destroyed due to the need by the Bremen Water Department (with permission of the late Miss Tassie Reid). Only pieces of tombstones are left.

RIVERSIDE CEMETERY

Surveyed by Myron House (September 2001)

From the intersection of US78/SR100N (Tallapoosa) travel west on US78 2.5 miles to Riverside Road. Turn right and travel 0.4 miles. Church is on the right. Cemetery is on both sides of the road. Section 2 is east of Riverside Road.
